

For a Bribe-Free, Non-Corrupt, Value-Based Politics

Serial No 17

Ravi Krishna Reddy  
Jayanagar Constituency- 173

Finally, I'm a People's representative

Dear Voters, my goal and dream is to take the lives of all of you towards happiness, prosperity, and equality. You have the power to make these dreams true by casting your most valuable vote in my favor. My election symbol is "WHISTLE" which is an indicator to expose corruption. Your vote has mighty power. You all collectively vote for me and it will turn into collective energy to elect me as your true representative in the Vidhana Sabha. Your vote will help me to bring a remarkable change in the Jayanagar Assembly Constituency. I will work as your guardian, as well as your worker. As your true representative, I will protect your dignity and respectful life. I want to be your real citizen representative, Ravi Krishna Reddy

My Promise to the fellow Citizens

- 1. I will NOT buy A PROPERTY during my tenure as your MLA
- 2. I will NOT be a part of any COMMERCIAL BUSINESS
- 3. Me and my family will lead the life with the SALARY/INCOME that myself and my wife receive

My duties and Dreams while aspiring to be a Member of Legislative Assembly

Bribe-Free

Constituency

Dear Voters, Making Karnataka a Bribe-Free state is my priority. A journey of thousand miles begins with a single step. Hence making Jayanagar Constituency a Bribe-Free constituency is my first aim. Today corruption is like a monster, it has many forms and has devastating effects continually on all of us in different ways. I have a dream to eradicate corruption from the current system. By using the existing rules and facilities, I will see to that all government offices and hospitals in Jayanagar constituency will become free from all sorts of bribe and corruption within a month's time of my getting elected to Assembly.

Garbage-Free Constituency

Dear Voters, Waste Management to clear garbage in Bengaluru City has become a major problematic issue as the BBMP could not handle the same effectively. In Jayanagar constituency, you can see wastages thrown at road sides and corners.

In many places there are heaps of wastes, smelling stinky and making it difficult to walk on roads. All these have become source of mosquitoes and flies which spread many diseases in the area. Is it OK to have cleanliness only inside your house? Don't you need cleanliness outside your house? There is scientific way of collecting the segregated waste from your houses and layouts without making it to pour on a property belonging to someone else. Today BBMP is pouring thousands of tons of un-segregated waste from Bengaluru city in the vacant land of surrounding villages in most unscientific way. There is a big garbage mafia behind this work involving hundreds of crores of rupees. We can avoid all these by recycling of Dry Waste and converting Wet-Waste into compost manure within the jurisdiction of wards in the constituency. We can save tens of crores of rupees in our constituency by doing so. We can implement this new method of waste management in just one year. This new model followed in Jayanagar Constituency may be made enforceable throughout Bengaluru.

Eco-friendly

Constituency

We will work towards planting trees, installing rain harvesting system and solar energy system in the open areas of all the government institutions within one year. I shall do my best to maintain scientifically all the gardens in Jayanagar Constituency with full of greenery. Citizens can relax and refresh freely in the open environment of the garden without any fear and impediments. I shall protect illegal encroachment of the Government land by land mafias and others and plan to plant trees with long life in open land so as to convert it into mini-forests.

Providing good education

I have a dream of providing good education to one and all by bringing improvement in education field. I will work out a scheme under which all students of Jayanagar Constituency will get first preference for joining different schools and colleges within the constituency. I will take steps for integral improvement of education system in all government schools and colleges situated in Jayanagar Constituency so that they provide quality education within the next five years and become model for the entire state for bringing a change in the education system. I will take initiative to upgrade all public libraries in all the seven wards of the constituency by providing necessary infrastructures so that the upgraded libraries will be resourceful to the students of higher education, technical and medical education and aspirants preparing for competitive examinations.

IN PUBLIC LIFE

- During 10 years stay in the USA working as a Software Engineer served as the President of "Kannada Koota of Northern California" in 2005.
